Please use the buttons provided on the page when conducting your search for best results. Do not use your browser's back button.

Not all providers offer all services and discounts on non-covered services and may not be available through all providers, or in all states. Certain information, such as hours of operation, languages spoken, acceptance of new patients and the types of frames/products are provided directly by providers and are not independently confirmed by EyeMed.

Any provider included in this directory is listed for outpatient services. In addition, the directory includes information regarding whether the provider is currently accepting new patients.

If you have difficulty finding a provider near you or securing an appointment, you may be eligible to submit an out-of-network claim to receive the in-network level of benefit. Visit eyemed.com for an out-of-network claim form.

Not all providers participate in every plan. If you are not yet enrolled in an EyeMed plan, please keep in mind your actual network may vary from what appears on our locator. If you are an EyeMed member, you can **log-in** to access the exact list of available providers. Even if a provider is displayed, we recommend you call ahead to confirm the provider accepts your EyeMed plan. In the event you selected "I Don't Know", the search results are based on Advantage network.

About our network

Important information for Provider Locator users who live in **Texas**.

How we build our vision networks

Our network of eye doctors includes thousands of independent providers, popular retailers and online options so you can see who you want to see, where and when you want to see them. We build our networks based on how many providers there are in a specific area and the provider's ability to meet network participation standards. We reimburse providers a contractual fee for each service they provide. This way we can ensure that we have enough providers available to meet your routine vision care needs.

How we choose providers

We created the vision network based on numerous market variables. We chose providers for this network based on the following criteria:

- access and availability
- meets our credentialing standards
- provider ability to meet network participation criteria
- cost efficiency

Quality assurance procedures

All providers must complete credentialing before joining our network. We require re-credentialing every three years. Between credentialing cycles, we monitor the following as part of the ongoing quality review:

- state board sanctions
- loss of license
- office of personnel management/office of inspector general reports
- state and federal program exclusion lists
- Medicare opt out

Network maintenance

Our network providers are the source of the provider information in this directory and responsible for information accuracy. Updates received from our network providers are typically added to the EyeMed Provider Locator once per day, including weekends and holidays. Exclusions include interruptions due to system maintenance, upgrades or unplanned outages. This information is subject to change at any time. Should you elect to use a printed subset of the directory, keep in mind that the printed directory is only accurate as of the date printed and limited by the search filters. The website provider locator is the most current and complete provider directory. Network administration services are provided through EyeMed Vision Care, LLC 4000 Luxottica Place Cincinnati, OH 45040.
